OUR SUPERPOWER: TURN ANY STREAM INTO A GAME

STREAMS

ARE NOT TV

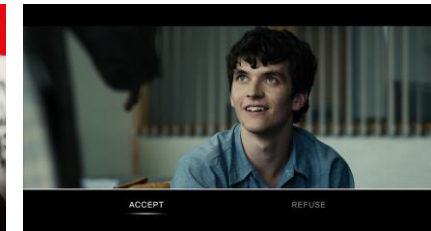

Streaming has taken over

Screens are all interactive devices connected to the Internet – it's the era of Online TV.

\$100B+ is spent on content yearly.

\$200B+ in ad revenue – Netflix just started.

Whenever there is interactivity on stream, everybody notices (i.e. Bandersnatch on Netflix)

**STREAMS ARE THE BIGGEST
PLATFORM THAT NOBODY
HAS BUILT GAMES FOR,
*UNTIL NOW...***

STREAMS ARE DIGITAL ARENAS

Tony Robbins streamed to 24k viewers building one of the first Digital Arena. But only interactive **games can get the audience to lean in** and engage with the creator and sponsors at scale.

Sponsors are currently the main customers of this attention.

Streamers, Network, Game Developers and Azarus all have aligned interest to maximize the engagement of the Audience, amplifying the value.

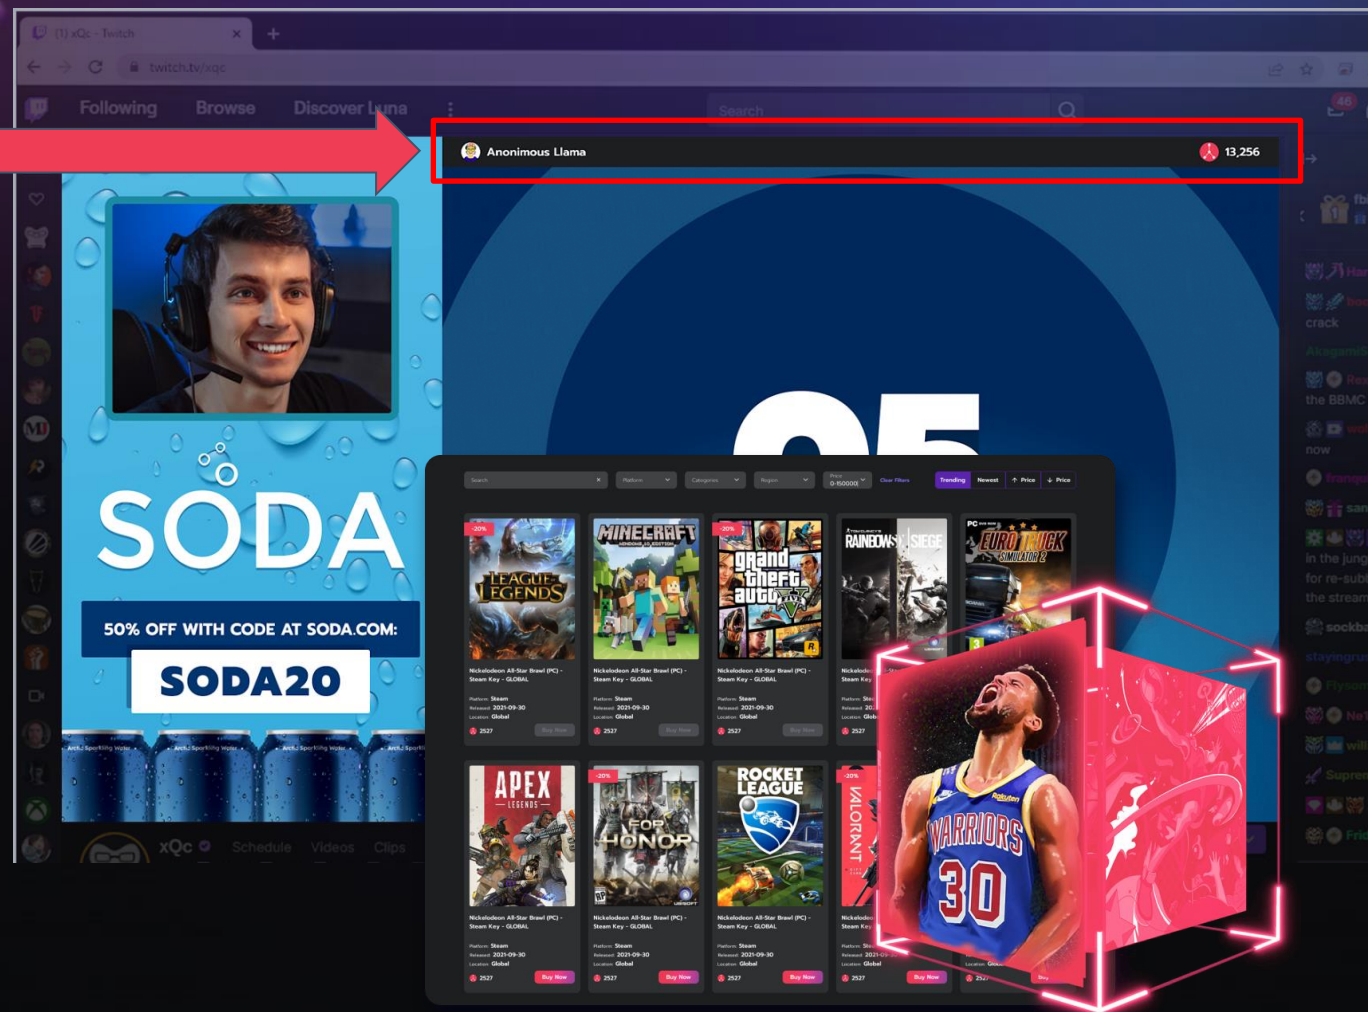

THE STREAM IS YOUR WALLET

Every stream is a wallet of AzaCoin.

- **on-stream** to interact with games and communities (Premium, bids, bets, mint NFTs, tip, stream DAO).
- **off-stream** through the Azarus Store offering unlimited supply of digital items, or by sending it to a wallet / dex / cex.
